BOOK SYNOPSIS

The second edition of Oxford Assess and Progress contains over 350 Single Best Answer and Extended Matching questions mapped to the Oxford Handbook of Clinical Specialties. Supported by high-quality colour photographs and references to evidence-based further reading, this is the ultimate resource for students looking to strengthen their grasp of the core clinical specialties. Written by practicing clinicians and experts in medical assessment, this resource includes details feedback on each question answer to guide the reader to exam success. Every question is categorised by difficulty to help the reader track their progress, an important aspect of effective revision. The second edition has been fully updated to match the ninth edition of OHCS, and to include the most up-to-date further reading across the specialties.
